## Customer Reviews

Love it. The Piece o' Cake duo are my favorite quilt authors. I have been quilting for fifteen years and have almost all of their books. I love to appliqué and their ideas are so fresh and easily adaptable to several different types of projects. Their instructions are easy and clear and they give you the confidence to tackle things you didn't know you were ready for. I value well written instructions because I also own several other quilt books that weren't written with such care and which left me trying to guess what the author was trying to convey. Not so with Piece O' Cake.

Book is very informative and I will use it a lot. Had several patterns that I liked.

I love anything by Becky! And this book did not disappoint. I especially love that the projects are all very manageable - not overwhelming. Instructions are clear and fun to follow

Great book! Very motivating to read and think about future projects.

I haven't had a chance to do much with the projects in this book, but it looks like fun. Lots of great new methods for applique'.

GREAT book. Lots and lots of information!
