## Customer Reviews

Good Lord! Huge photos of facades and tiny plans. What was the point of this book? People want to SEE the house plans. Sheesh. If my local Lowe's had ANY house plan books I would have had a chance to look before purchasing.

This book had great plans for a wide variety of home sizes and styles. There were also advice sections every 80-100 pages which gave the reader a break from looking at so many plans, which tended to all run together after a while. The sections were on topics such as landscaping, color, types of trim work, fireplace technology, and even choosing a sink! Even though we have chosen a custom build, and a design not in this book, it will remain useful for ideas as construction proceeds.

Needs more homes with larger family rooms and more unique elevations.
