Great purchase for my wife for Christmas! It's working out great as she has made three recipes in the first week! She did say the recipes are pretty complex, not 5 minute jobs like you see on the TV show. There are pictures of the contestants throughout the book but none of Ramsay, I can see they had license to use Hell's Kitchen but maybe not Ramsey's image?

Fantastic! I love it. Very basic instructions, how to set up kitchen, pantry, what equipment your kitchen should have. I am an experience cook I believe its a good teaching book. It helps to know how to cook but a beginner may have a hard time with the recipes at first but its a good teaching book. Just follow what he says.

I like the book quite a lot. I have not made any of the recipes, although several look good. We are fans of the show more than of Gordon Ramsay's cooking, so this was exactly what we wanted - recipes that were used on the show. It includes standards of the show menu (scallops, risotto, beef wellington) as well as recipes created by the contestants. The book is nicely photographed and designed, definitely worth the price.

Really like the book. I love the recipes in the book. And see the teams in the book is really neat too. I would suggest this book for any kind of gift. Or it's one worth keeping for yourself. Where you can use some of what they have in it. for parties. I think that is really neat.

Me and my husband are Hello Kitchen fans and have seen every show, from the very first one of season one, episode one, and I have always wanted to know how to cook scallops and risotto, now I know and it is a lot of steps but they are clear and Chef Gordon isn't hollering at you while you are trying to cook his food. We love it

To be honest you were annoyed with my son for wanting this cook book. My fear was that it would be like all the other cook books. Now my son cooks almost nightly out of the cook book. I have found that some of the recipes can be costly if you don't have the herbs and spices. So we have added a small herbal garden to have fresh herbs. This is a must have for those who love to cook and create amazing dishes. My son even learned how to arrange the food on the plate for an added touch to this cook book.

Tons of recipes...no (almost none) pictures. The recipes are delicious, as would be expected from Gordon Ramsey... I just wish the book was full of pictures to go along with each recipe. If I saw the book in a bookstore, I would not have bought it. Pictures speak a thousand words when it comes to recipes.

I bought this for my daughter who happens to LOVE Chef Ramsey. She was quite happy to put it mildly to receive it. Haven't used it yet but come this fall, when we cook inside, I'm sure it will be a regular in the kitchen! Thanks for the book from the show and chef she loves.
