# The Best Pressure Cooker Cookbook Ever

## Synopsis

Designed in the same great style and format as the bestselling 365 Ways series, this cookbook offers 200 recipes for use with the convenient, healthy, and increasingly popular pressure cooker. The book includes such tantalizing recipes as Italian Lentil Soup with Sausage and Peppers, Texas Ranch-Style Brisket, and Chocolate-Caramel Custard.

## Customer Reviews

Between the book store & library I've gone thru at least a dozen pressure cooker cookbooks. Most had recipes that I'd never make for my family, with exotic or just plain weird ingredients. This cookbook has recipes that I'd use all the time for my family of fussy eaters. They're easy, tasty, and best of all, "normal" It also has a great binding that opens flat, great in any cookbook. I can't recommend this book more highly

Recipes offer delicious results, with everyday ingredients, that saves me hours that I would like to spend elsewhere. Even the vegan can find something suitable. It also takes all the mystery and fear out of pressure cookers. Binding makes staying open easy. Something for everyone for every occasion.

since I was on a diet I tried almost all the vegetable recipes which were unique and turned out really good. so did the carolina pork and just about everything I have tried. buy it if only for the vegies.

I bought this book because of the nice ratings it was getting. It was well worth it. I have 3 pressure

cooker books I purchased when I bought my first pressure cooker. By far this one gets the most use. My hat is off to Pat Dailey (the author). The book has a hard cover and the lay flat binding should be a must for all cook books. That feature works perfect for an easy hands off read. It has a nice variety of good recipes to choose from. I really like this book. The quality build of this book means it will get used and still look good for a long time to come. Get one. You won't be disappointed. A+

Love this little book. Makes you want to use your pressure cooker more often. Wonderful lay-flat binding makes it easy to use. For those who wish to be able to lower costs by using less expensive cuts of meat this is a great source of recipes. I recently bought an induction cooker. Team that with the pressure cooker to lower energy costs and make better use of your grocery dollar. Worth every penny.

I find more good recipes in this book than any other of the five pressure cooker cook books that I own.

Pressure cookers have fell by the wayside, but I started using mine again. Then I remembered about this cookbook and found it on ! I got a very good deal and I love all the recipes in here. The cookbook was used, but arrived in better shape than described. I wouldn't hesitate to buy another used cookbook from !

Nice addition to my collection of cook books. This book is nicely organized which makes it easy to identify recipes. It is also small enough to accompany the user on trips to the supermarket.
