# Design For Climate Change

## Synopsis

Aimed at architects, contractors, engineers and specialists in the field, this book uses real-world evidence from a Technology Strategy Board-funded research project to develop a set of tools for architects and other building designers to meet a growing need to anticipate future climate change. Built on in his seminal future climate change report for the TSB, Bill Gething (with Katie Puckett) identifies three broad categories of climate change impacts on building design – comfort and energy performance, construction, and managing water.

## Book Information

Paperback: 196 pages

Publisher: RIBA Publishing (November 30, 2012)

Language: English

ISBN-10: 1859464483

ISBN-13: 978-1859464489

Product Dimensions: 8.4 x 0.6 x 10.6 inches

Shipping Weight: 1.7 pounds (View shipping rates and policies)
