This is easily one of the best cookbooks I have purchased on for three reasons. First of all, this is a diet that actually makes sense! That alone puts the Whole Food diet in a the top 5% or so of diets I've seen come and go. Just eat healthy, unprocessed food in its natural form and you will lose weight - well what do you know, it works! The second thing I love about this book is the quality of the recipes. I've probably cooked close to half the recipes in the book at this point and literally every single one has been fantastic! Every. Single. One. I can't even recall the last time I bought a cookbook and didn't find at least a few duds mixed in. I'm not sure it ever happened before this one! The third great thing about this book is the value. I paid \$13 for this book and got 100 recipes. That is 13 cents per recipe. Let that sink in for a minute. 13 CENTS PER RECIPE. And for that negligible sum, I got some of the best tasting, healthiest food I've ever made for me and my family. Great deal? I'd say so.

This is everything I hoped it would be! It contains 100 amazing whole food recipes that taste great and are not too hard to make. There are lots of vegetables in these recipes, as well as some delicious fish and chicken dishes that are some of my personal favorites. I see buying a book like this as making an investment in my health. Don't worry though, the recipes are so tasty you won't feel like you're on a diet at all!

A good recipe book in starting a whole food lifestyle. With so much good-tasting processed food out in the market and with the convenience fast food chains offer, it is so easy to be allured with these type of foods but it is indeed important to be reminded that our body is designed for healthy whole

foods. This book is a great help for everyone who wants to lose weight and be healthy through embracing the whole food diet.

This book features healthy, easy to follow recipes using natural and wholesome ingredients. I enjoyed making a few of these recipes with my favorite being the Taco-Spiced Turkey Burrito so far. My husband is excited for me to cook a few more from this book as we are both trying to lose weight and stay healthy. I recommend this book to anyone who is interested in getting into a healthy diet regimen/lifestyle.

The Whole Food Recipes provided by this book are all equally healthy and nutritious. For breakfast recipes I have selected the following to prepare for my family: Avocado Coconut Smoothie, Ground Beef Casserole with Cashews, Breakfast Turkey Casserole, Oat Cranberry Smoothie. For lunch recipes I chose Salmon with Curried Tomatoes, Kale and Tomato Stuffed Chicken Breast, Turkey Lettuce Wraps, Salmon Avocado and Cucumber Green Salad, Jerked Lamb Rib Chops, Grilled Pork Chops and Sweet Potatoes; and for dinner I want to take note the recipes Spice-Grilled Lemon Shrimps, Coconut Chicken Satay, Baked Garlic Chicken with Mushrooms, Baked Salmon with Avocado Salsa, Milkfish in Sour Broth, Spicy Coconut Chicken Soup. These are all yummy menus that all the family members will find delicious. I will also prepare such menus during party and get together and family gatherings.

This is a 30 day whole food diet book that helps to control weight rapidly and also improve health. This 30 day wholefood challenge was not only delicious, but extremely easy to prepare and cook. The ingredients are so affordable and it is easy to find. I have tried some of the recipes and its all great and delicious. When you want to shred some of that fat ,you must grab this book and make this recipe book as your great companion in your journey of losing weight. It will ease your craving and you don't have to starve yourself just to get sexy.

The best way to ease into a healthier lifestyle is by making small changes each day. Being healthy and maintaining a healthy state of mind doesn't mean going without, in fact, it means just the opposite! The book is well structured, neatly organized and pleasantly formatted for easy reading and understanding. I particularly like the part where it details clearly what needs to be done and what should not be done as well as the part of what foods can be eaten and which are the ones to avoid. Please enjoy this book and then look your body

We know that, we do love to eat delicious foods. But the problem is. If we do not watch out the amount of food that we intake. We will really not like the result. This book will teach us and tell everything that we must know on how to prepare recipes that are healthy and nutritious. It give us insights why this kind of food is good for us. You will going to love on what you will acquire in this book.
