## Customer Reviews

The design of "101 Things to Do with a Slow Cooker" grabbed my attention right away. It's small in size, only 5"x7", with a coil binding that makes it easy to fold back or lay flat. One of the best physical features is the plastic front and back cover protectors. I was very excited by this and thought "This is going to be a great cookbook." Flipping through the pages I came to a different conclusion: that I wasn't going to like anything. This was due to the first three recipes being virtually the same other than one ingredient. I felt cheated by the title. These could have fallen under one recipe with a note for variations. Continuing on it amazed me how little text was in this book for

ingredients and for directions. I put the book aside for a week due to lack of interest. A couple weeks ago, I decided the least I could do was give some of the recipes a try before I wrote a review. After reading thus far I think you will be surprised with the results, I know I was. Out of the 18 recipes I tried, only one received a rating below 6. I rated each recipe according to my standards. The highest rating was 7. Each recipe was rated for the following: availability of ingredients, clarity of instructions, ease of prep, husband factor, taste, reheatability, and freezability. One point is awarded for each area. Any area that didn't pass is in brackets. Anything with an extra number was doubly good in the taste category.
