Customer Reviews

Got this book as a gift for a friend that is getting married, and she loves it. It has given her a lot of hints, tips, and suggestions during the planning of her wedding, including how to handle the accomodation of non-vegan guests at the wedding.

This book makes me want to write my own book about how to plan a vegan wedding. It's a large undertaking, especially in the south where it is a bit more difficult to find vegan products - let alone vegan caterers. This book was helpful, especially when it comes to how to talk to vendors and what types of material to look for in clothing but it could definitely delve deeper into other aspects of wedding planning.

I think this book was definitely an eye opener! Some of it was based on stuff I had never even thought about, if planning a vegan wedding. It is a good read and I think pretty necessary if looking for ideas when planning a vegan wedding!

There are a lot of good ideas in this book! It's going to be very useful in planning my vegan wedding.
