## Customer Reviews

I'm disappointed with the book, it is missing pages 235-266, and it wasn't on the description. The book has a sticker that the book was inspected, but maybe they need better inspection!

Unfortunately, the price of the book was more expensive when I realize about this issue and I decided to keep it because that was my only option with a 20% partial refund.

The content of the book is very good but the end of the chapter cases are very weak. As a student, I use the cases at the end of each chapter to further my learning and get a better understanding of how companies use the concepts that were just read in the chapter. This book falls short in that area and that is why I gave the book 3 stars.

I am not sure why this ebook is not compatible reading on windows 8, very disappointing. So far, the only device I am able to access the book is from my iPhone, definitely not what I was expecting.

Very eye-opening text, focusing on relevant issues to be considered when 'thinking global'. Insights galore and frameworks to be guided by. Made it to my library!

A good textbook, but full of outdated statistics and examples. Why would you release the next edition if it is not up to date? Well, I guess I know why.

Great information and examples to learning about marketing. The pages sat too thin and delicate

Arrived right on time and exactly as expected!

Good product. Fast shipping
