The Spider-Man Vault: A Museum-in-a-Book With Rare Collectibles Spun From Marvel's Web

Synopsis

Rebooted into a fresh new film franchise (2012) directed by Marc Webb and starring up-and-comers Andrew Garfield and Emma Stone, and having debuted in its first ever Broadway appearance in March 2011, Spider-Man is back in the spotlight. Reaching out to millions of devoted fans, The Spider-Man Vault will afford readers a whole new look at the beloved "web-slinger". This vivid collection of images and ephemera focuses on a dynamic exploration of Spider-Man's character, providing a complete biography through his development in comics, media, and culture. Further drawing readers into Spidey's world will be approximately 20 removable features, housed in the sophisticated plastic pages specific to the "vault" format, and printed on special papers to heighten the noteworthiness of each carefully selected piece. From the classic comics to the big screen, The Spider-Man Vault is a comprehensive collection of art and ephemera that brings Spidey's back story out of the archive and into the arms of fans worldwide.

I bought this for my boyfriend who loves anything spiderman and he loved this. He cracked it open right away and enjoyed taking out the collectibles and reading all about the history and making of spiderman. He couldn't wait to run and show his friends. Definitely worth it for anyone who has an interest in spiderman.

For those of you interested in comics and especially the history behind them, the "Vault" books are

a wealth of knowledge. There is so much information provided and the included "collectibles" really add a lot to the overall experience. It really feels like you own a piece of history. While being a big fan of Spider-Man, I was amazed at how much I did not know about the friendly neighborhood hero. You can tell a lot of research was done before writing this book and I completely expect to pull this down from my shelf quite frequently, even if just to show fellow comicbook fans.

I bought this for a Christmas gift for a long-time friend who's a huge collector of anything Spidey. He said: 4 out of 5 stars for content and 5 out of 5 for ideas and design (which means my rating should be 4.5 out of 5 to exact!). So kudos to those who produced this book. Sounds like a must-have for any Spidey fan.

The person I bought this for LOVES Spiderman. He knows almost everything there is to know. It had a lot of what he already knew, but he loved it nonetheless. Recommend for Spiderman fans as a coffee table book.

Must have for any spiderman collector. This was a huge hit with me husband who has enough spiderman collectibles to start his own museum. But as with any collector, there are never enough new or old items out there and the collection is never really complete. But this helped!

Very nice book. Bought it for my sister who really likes spiderman. There is a lot of cool information and old school pictures. The replicas of the old spiderman collectibles are really nice. Very happy with the purchase.

This is perfect for every true Spider-Man fan. My husband is obsessed and I wasn't quite sure what to expect when ordering but I'm glad I did. It has the full history of Spider-Man as well as some memorabilia. Things like posters, drawings, and other fun things that you can actually take out of the book if you wanted. He says it's one of his favorite gifts he's received.

I bought this as a gift for my husband, who is a long-time spidey fan but always receives random junk with spidey on it as gifts. I wanted to give him a spiderman themed something that was more special. This book is so cool because there are prints and other items that have been reproduced at a high quality. He can take them out and enjoy holding the art and doesn't have to treat it like he can't look at it or take it out of its bag. He says it was the first spiderman gift somebody gave him that

was actually cool. I was so flattered and proud of myself!
