## Customer Reviews

You know, I have always seen the law of attraction being taken out on a daily basis, but I never paid any mind to it. I even learned about it in High School and I should have applied it then, Lord knows I would have had a better time. But for some reason, I just didn't. Then, I got this and listened to it in one week while getting ready every morning. It's concepts are basic enough for anyone to understand and very easy to apply. I have been able to get through panic attacks or even resist them all together by applying this universal law.

I tend to be a pessimist and a worrier. My younger daughter knows this, and has helped me to try to overcome this. When she was going to get rid of her old iPod, she asked me if I wanted it. Unbeknownst to me, she had downloaded "The Secret" audiobook on there. I asked her about it, and she said "Listen to it, Mom. It's helped me, I think it'll help you". I did, and I am so thankful. I still have days when it's hard to see the positive and to be thankful enough, but I try harder now. I try to find more positive ways of approaching difficult situations. Rhonda Byrne is a little hard to understand at times, during the narration, but well worth having a second listen to, to make sure you do. I highly recommend this book.

I listen to motivational CDs in my car all the time. I have everything from Louise Hay to Wayne Dyer, but this is one of my favorite programs. It's very motivational and inspiring. I highly recommend this CD set for those who are ready to grow and prosper.

I've spent about 25 years reading and studying quantum physics. The Secret is not loaded with scientific jargon but instead is produced with the lay person in mind. I'm a believer in the law of attraction but if this was the first collection of such ideas I listened to, it probably wouldn't have convinced me. That doesn't mean this book/CD is not worth it. That statement is more related to the fact that I am a data analysis type person more convinced by hard facts than anecdotal information. When I first bought it, I listened to it daily for a few weeks and now I listen to this CD at least once a month. This is the best way I've learned for the concepts to take hold and overcome the conditioning we are put through daily by the manufactured world around us mainly through media.

Love the secret. Helps me when I feel I lost focus of what I want and/or what I actually need. It gives you guidelines how to get there. It magically works...probably not in the way you want it too or picture it but it does it in it's own way when you give it a real chance. Nevertheless you will feel good just trying.

I listen to this on my long ride to work to stay positive. It's a great way to stay on track after reading the book.

Haven't listened to all cd's but find them very informative. One day the man was talking about wishing for a check in the mail instead of dreaded bills and I could not believe when I went to get my mail, there was a small check in the mail. Crazy stuff!!!

Discover 'The Secret' and turn your world around. I cannot state how grateful I am for discovering the book. However, the DVD is great!! It taps into both your auditory and visual senses to lead the way to greater happiness, more peace, and purposeful life. With 'The Secret' you can choose to change the way you think, and take command of your life! As it is said in the DVD version of the book, "Your wish is my command..." Let the universe know what you need more of in your life, and why you are grateful for all that you have currently, as well as what is yet to come! Highly recommended set of DVDs.
